

Integrated Mobile Named Runner Up in the Southwest Ohio Project Management Institute's Excellence in Project Management Competition

Columbus, OH – May 22, 2008 – Integrated Mobile, the leader in managed mobility solutions for enterprises, today announced that it has been named runner up in the Southwest Ohio Project Management Institute's Excellence in Project Management competition, honoring small businesses for superior performance and execution of exemplary project management methodology and best practices.

"It's terrific to be recognized by our colleagues at the Southwest Ohio Chapter of the Project Management Institute and we are honored to be runner up," said Bruce Smith, Chief Operating and Financial Officer. "We're proud of our operations team and the service excellence standards they've established. All should be congratulated for their part in making Integrated Mobile the leader in managed mobility solutions. They've set the bar pretty high and have been able to consistently achieve their service delivery objectives through the use of project management methodologies."

"We work with some of the largest and most complex enterprises and have helped them drive the chaos out of their wireless environment by rigorously employing PMI, ITIL and Six Sigma best practices. Utilizing this disciplined approach, we've helped our clients develop wireless policies and best practices that establish effective mobile IT governance, drive productivity and reduce the total costs of an enterprise's wireless ownership. Our team should be proud of this recognition and we thank the Southwest Ohio Project Management Institute for sponsoring these awards."

With the Integrated Mobile solution, enterprise clients are able to successfully move beyond providing wireless voice and email to their mobile workforce because Integrated Mobile provides the infrastructure required to deploy and support advanced wireless applications. Integrated Mobile is recognized as the leader in managed mobility solutions as a result of combining a state-of-the-art technology platform with proven best practices in IT management including PMI, Six Sigma, ITIL and CMM in order to eliminate defects, drive management maturity and deliver unsurpassed efficiency and control.

About Integrated Mobile

Integrated Mobile is the leading provider of managed mobility services having served customers that represent more than 25 percent of the Fortune 1000. Founded by a former IT consulting executive who observed first hand the administrative chaos and burgeoning costs his corporate clients were experiencing in providing wireless capabilities to their employees, Integrated Mobile purpose-built a web-based portal and services, based on Six Sigma and ITIL, to help businesses gain control of their wireless assets and costs.

Today, Integrated Mobile offers a full suite of managed mobility solutions and services that deliver end-to-end management of the enterprise's entire wireless lifecycle, including device fulfillment and configuration, training, asset management including end-of-life device recycling, bill optimization, reporting and 24/7 end-user support. The Integrated Mobile Managed Mobility Solutions slash the total cost of wireless ownership by 20-40%, provide a single point of contact for all wireless services across multiple carriers, improve the overall quality of administrative and end user support — all while simplifying the management of wireless devices and services.
